DETAILED ACTION

Response to Arguments

Applicant argues that there is no forward biased p-n junction anywhere in Ham, since Ham teaches only reverse biased junctions.

Independent claim 2 recites forming a p-n junction, independent claim 3 recites forming an alternative current path, and dependent claims 4-6 recite lower resistance current path. Ham teaches plurality of current paths through p-n junctions in the direction of the ground voltage and the power supply Vdd. Note that Vdd can be positive or negative voltage (column 4, lines 59-62). Therefore, Ham teaches forming a p-n junction as recited in independent claim 2, forming an alternative current path as recited in independent claim 3, and lower resistance current path as recited in dependent claims 4-6. Furthermore, the limitation of forming a forward biased p-n junction as argued by applicant is not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Papers related to this application may be submitted to Technology center (TC) 2800 by facsimil transmission. Papers should be faxed to TC 2800 via the TC

Art Unit: 2811

2800 Fax center located in Crystal Plaza 4, room 4-C23. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The Group 2811 Fax Center number is (703) 308-7722 and 308-7724. The Group 2811 Fax Center is to be used only for papers related to Group 2811 applications.

Any inquiry concerning this communication or any earlier communication from the Examiner should be directed to *Examiner Nadav* whose telephone number is **(703) 308-8138**. The Examiner is in the Office generally between the hours of 7 AM to 4 PM (Eastern Standard Time) Monday through Friday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas, can be reached at **(703) 308-2772**.

Any inquiry of a general nature or relating to the status of this application should be directed to the **Technology Center Receptionists** whose telephone number is **308-0956**.
